

HYBRID TEA ROSE PLANT NAMED 'MEITELOV'

Abstract of the Disclosure

A new and distinct variety of Hybrid Tea rose plant is provided which abundantly forms attractive large double yellow blossoms that are lightly perfumed. The plant exhibits a strong vigorous growth habit, semi-glossy decorative dark green foliage, and excellent disease resistance. The attractive dark green foliage contrasts nicely with the yellow blossoms. The new variety is particularly well suited for growing as attractive ornamentation in the landscape such as in parks and gardens.
